

PARCELS POST JANUARY 1ST

Announcement Made by Postmaster General Hitchcock
Installation of New System.

Announcement was made by Postmaster General Hitchcock recently that the postoffice department would be in readiness on January 1, 1913, to put into general operation the recently authorized parcels post system.

The postal express business, which must be organized within the next four months, will extend over more than a million miles of rural delivery and star routes and will cover, in its various ramifications, all systems of transportation of parcels now utilized by private express companies.

In order to take up personally and immediately the work of organization of the new service, Mr. Hitchcock has cancelled engagements he had made for his vacation and will remain in Washington to direct the organization.

The details of the parcels post system will be worked out by a series of committees composed of officers and experts of the department. The general executive committee appointed today consists of Chief Inspector, Robert S. Sharp; Supt. John C. Koons, of the division of salaries and allowances; Chief Clerk, A. A. Fisher of the second assistant postmaster general's bureau and Supt. Geo. L. Wood, of the division of rural mails.

WORKING ON CLASSIFICATION.

"First of all," said Mr. Hitchcock tonight, "must be prepared a classification of the articles that can be accepted for transportation by a parcels post. The law admits to the mails practically all kinds of merchandise that can be transported safely, including products of the farm and garden as well as factory products, provided such articles do not weigh more than 11 pounds nor exceed 72 inches in combined length and girth. The mode of packing will be prescribed carefully. The present equipment of the mail service is not adapted to the carriage of such merchandise and therefore, new equipment must be provided. It is likely we shall employ extensively, hampers, similar to those used in foreign countries, in handling parcels post mail. The style, size and material of such hampers must be determined and advertisements issued for their purchase.

"The law provides that postage on all parcels shall be prepaid by affixed distinctive stamps. This will necessitate the designing and printing of at least a dozen denominations of special stamps, ranging in value from one cent to one dollar. Provision for the collection on delivery of the price of a parcel must be made. Regulations governing this phase of the system already are being prepared.

QUESTION OF INDEMNITY.
"The law provides indemnification for lost or damaged articles and since many of the articles to be carried will be fragile or perishable the question of indemnity is one for careful regulation.

"The system of distance requires the employment by postmasters of a distinctive postal map on which the zones are represented. Such a map already has been prepared by the department and arrangements are being made for the printing of about 150,000 in order that each postoffice and postal station in the United States may be supplied with two copies. A directory of all offices is being compiled for use in applying the prescribed rates of postage to the distances shown on the zone maps."

It is realized by Mr. Hitchcock that it is important at the outset to provide for additional equipment and transportation facilities to avoid any possible clogging of the usual mail channels. This involves one of the most serious problems now confronting the postal officials as a result of taking over so large a volume of additional mail.

Many Driven From Home.
Every year, in many parts of the country, thousands are driven from their homes by coughs and lung diseases. Friends and business are left behind for other climates, but this is costly and not always sure. A better way—the way of multitudes—is to use Dr. King's New Discovery and cure yourself at home. Stay right there, with your friends, and take this safe medicine. Throat and lung troubles find quick relief and health returns. Its help in coughs, colds, grip, croup, whooping cough and sore lungs make it a positive blessing. 50c and \$1.00. Trial bottle free. Guaranteed by all druggists.

JONES MEN IN CONTROL.

Majority Representatives in Senate and House Anti Blease.

Complete returns from the recent elections show that the supporters of Judge Jones will have control of the house and the senate. In the senate there will be a two-thirds majority of Jones men. In the house there are seventy known supporters of Jones and twenty-nine for Blease, while the attitude of twenty-nine is unknown. There are twelve known Blease supporters in the senate, with two unknown. Eighty-nine members will be required for a two-thirds majority in the house.

It is hard for a man to mind his own business unless he has both a mind and a business.

The Men Who Succeed

as heads of large enterprises are men of great energy. Success to-day demands health. To fail is to fail. It's utter folly for a man to endure a weak, run-down, half alive condition when Electric Bitters will put him right on his feet in short order. "Four bottles did me more real good than any other medicine I ever took," writes Chas. B. Allen, Sylvania, Ga. "After years of suffering with rheumatism, liver trouble, stomach disorders and deranged kidneys, I am again, thanks to Electric Bitters, sound and well." Try them. Only 50c at all druggists.

Mr. Stewart Grateful.

Editor Sentinel: I want to thank the good people of Pickens for the flattering vote I received on the 10th inst., and for the many kindnesses shown me during the campaign. I again thank you one and all.

Yours truly,
Taylor H. Stewart.
